

Workshop on Geometric Measure Theory and Minimal Submanifolds

Date **2018.5.8-10**

Venue R202, Astro-Math Bldg., NTU

Aim

Geometric measure theory and the theory of minimal submanifolds play increasingly important roles in many fields and in resolving fundamental problems such as Positive Mass Theorem, Poincare Conjecture, Willmore Conjecture, etc. This workshop aims to introduce some recent developments in these fields.

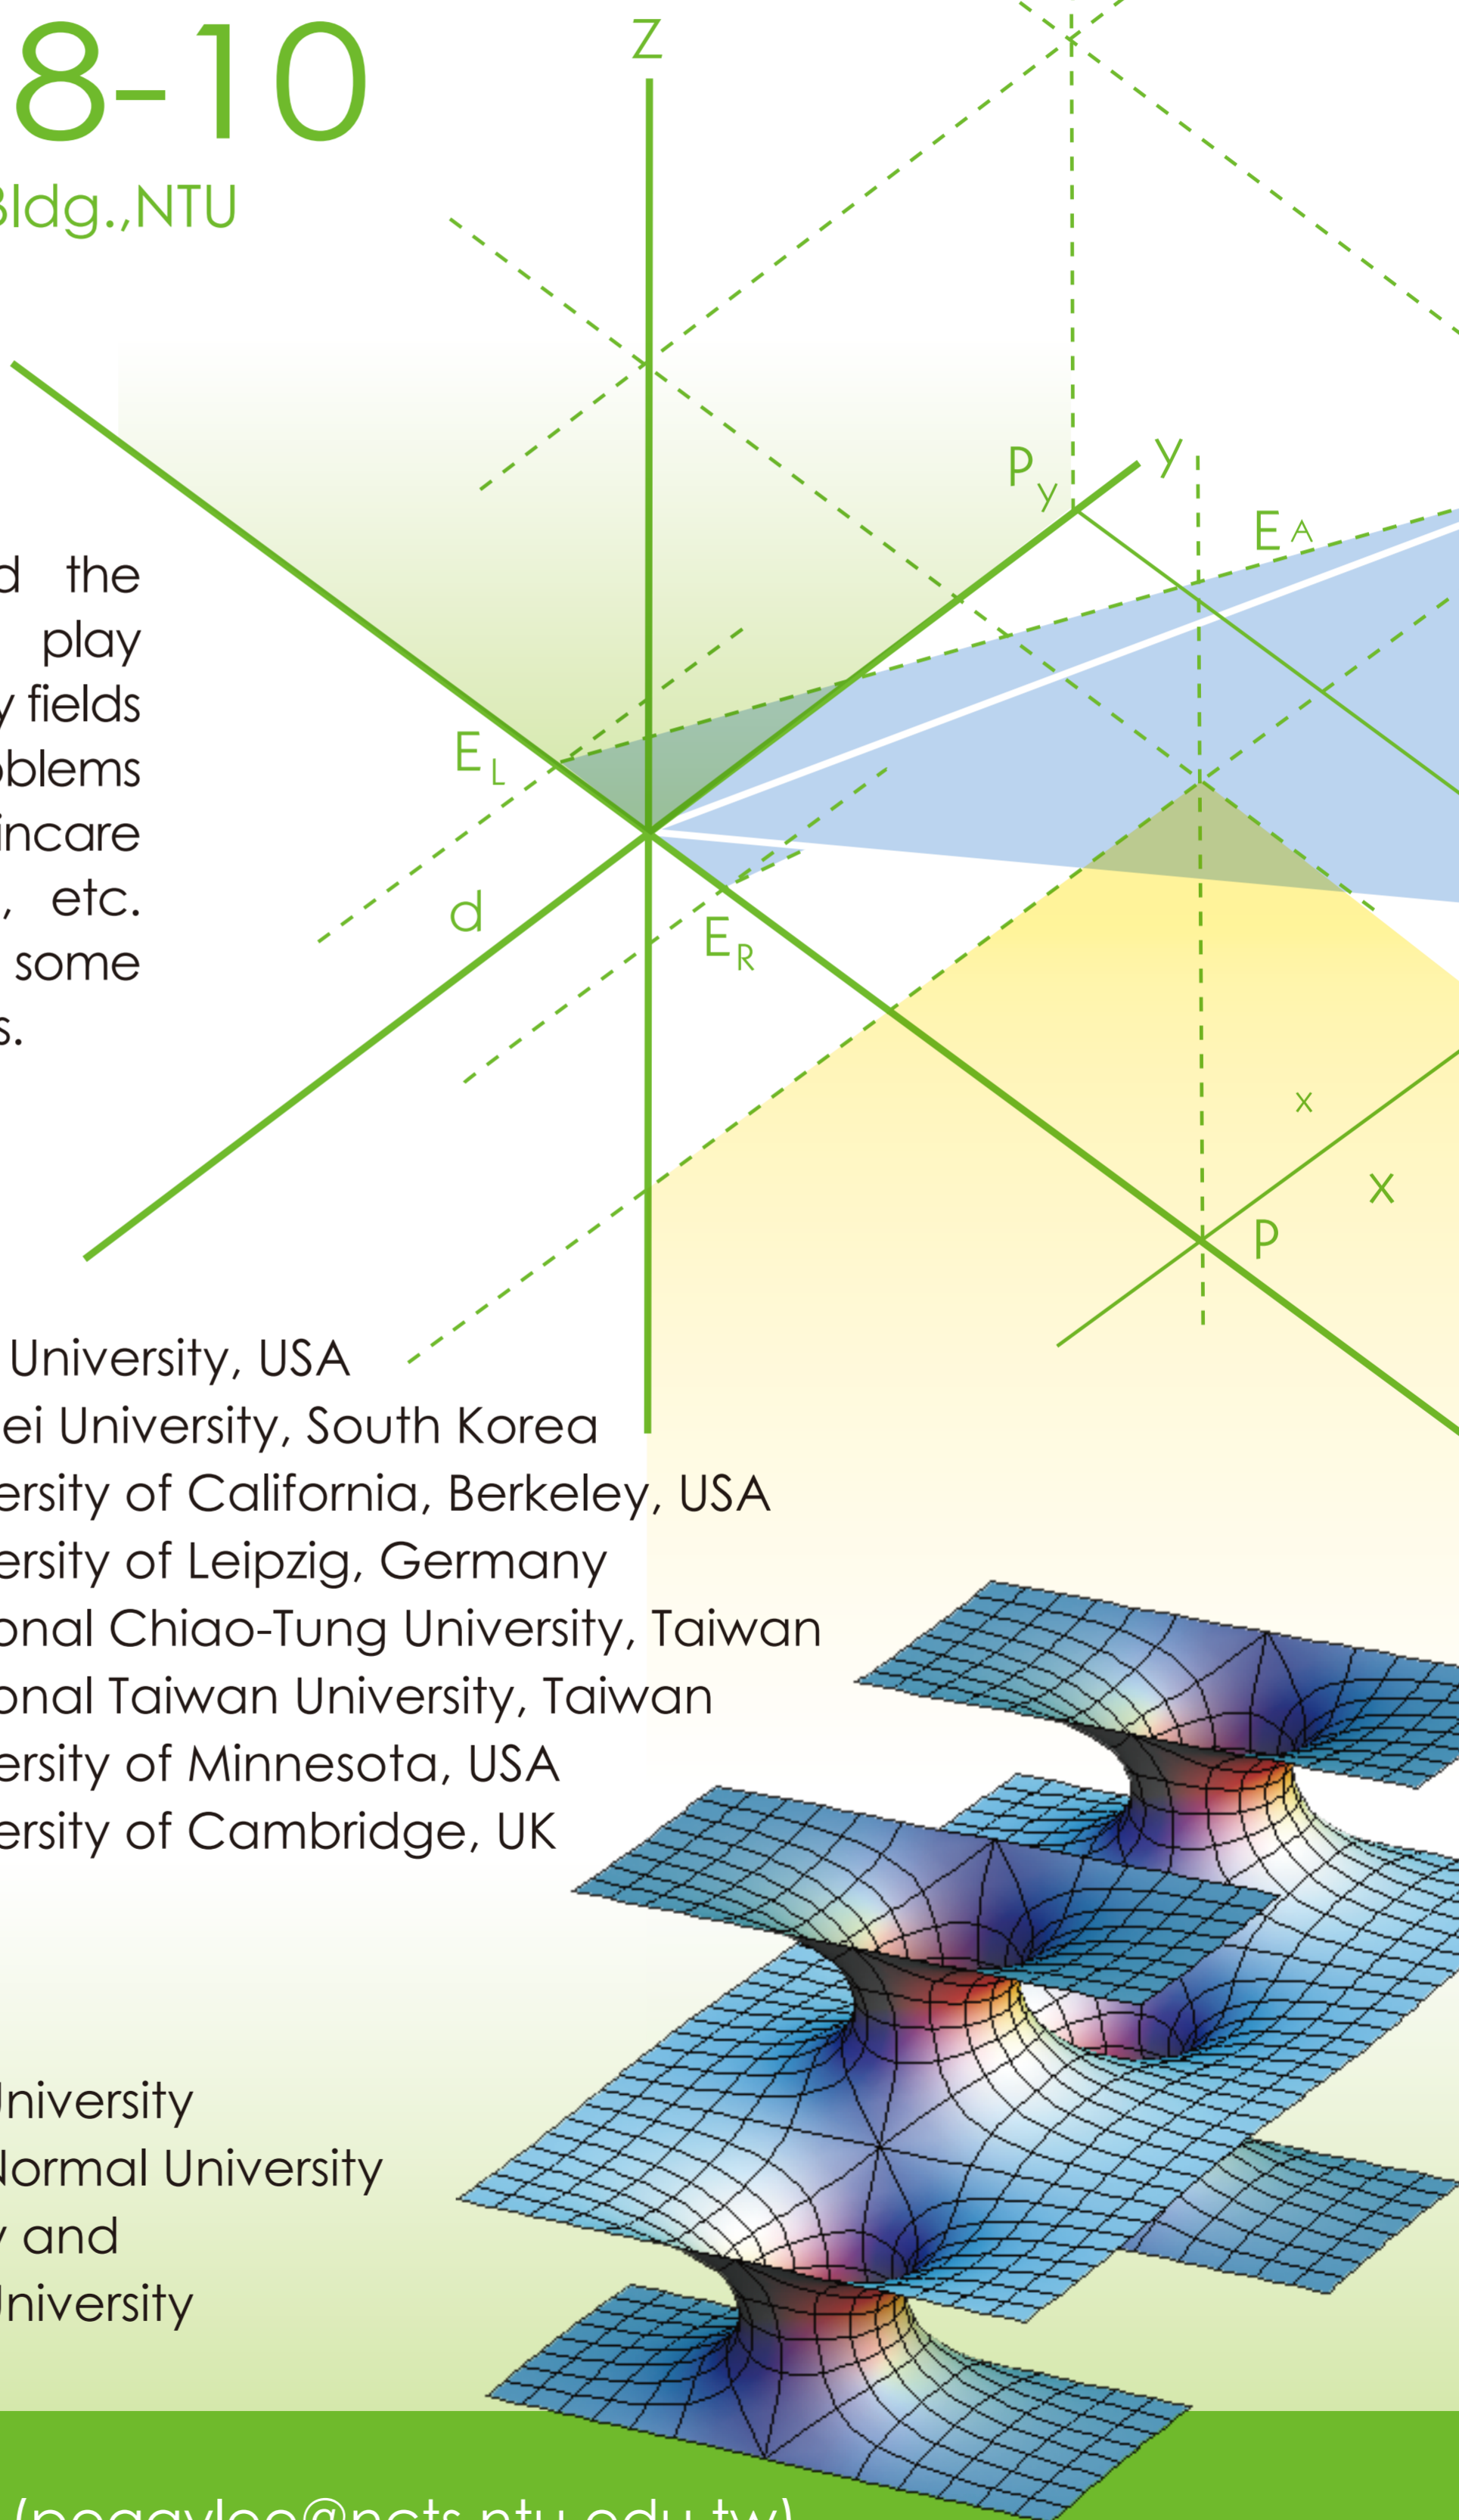

Speakers

Robert Hardt
Lami Kim
Brian Krummel
Ulrich Menne
Daniel Spector
Chung-Jun Tsai
Jiaping Wang
Neshan Wickramasekera

Rice University, USA
Yonsei University, South Korea
University of California, Berkeley, USA
University of Leipzig, Germany
National Chiao-Tung University, Taiwan
National Taiwan University, Taiwan
University of Minnesota, USA
University of Cambridge, UK

Organizers

Yng-Ing Lee National Taiwan University
Chun-Chi Lin National Taiwan Normal University
Leon Simon Stanford University and National Taiwan University
